## ERA iGO

Cordless, 55 [dB]  
quiet dry vacuum cleaner  
in 36 V lithium ion version

Maximum cleaning flexibility with the new ERA iGO cordless dry vacuum cleaner!  
Discover a convincingly sustainable and extremely quiet dry vacuum cleaner with immense battery power.

We present to you our

# 2024 PRODUCT CATALOGUE

Immense battery power, extremely quiet and convincingly sustainable – this describes our new cordless dry vacuum cleaner, ERA iGO! It combines wireless, self-sufficient operation with the unique features of the ERA range. The 36V Li-ion version offers you maximum flexibility and mobility. In addition, this new product belonging to the ERA series is also MADE IN GERMANY. The ERA iGO is manufactured at our company headquarters in southern Germany, is made of 50% regranulated plastic and, on request, can be purchased as a product with financial climate contribution (from page 34 on).

In 2024, in addition to the number of cleaning devices produced in Germany, we will also expand our production and logistics area by another 4,000 m<sup>2</sup>, thereby making it approx. 10,000 m<sup>2</sup> in total. With our new assembly and logistics centre, we guarantee opportunities for our headquarters to grow in space over the next few years.

In addition to our commitment to manufacturing in southern Germany, we continue to work on offsetting unavoidable CO<sub>2</sub> emissions by making a financial climate contribution. Therefore, SPRiNTUS will continue to be a company with a financial climate contribution in 2024.

On request, selected products with financial climate contribution can also be purchased. By avoiding and reducing emissions as well as by offsetting emissions, we want to achieve climate protection on a holistic level and make our contribution to the fight against global warming.

Of course, we will also present our other new products for 2024. From page 82 on, you can discover the new Hercules Duo Speed, a single-disc machine for flexible use with two working speeds, and from page 116 on, you can find out more about the new PuriX PRO cleaning trolley.

We hope you have a lot of fun browsing through the catalogue, testing our products and cleaning

Your SPRiNTUS-Team

# SPRINTUS GLOBAL

SPRINTUS is an international, family-owned company with deep roots in South Germany.

Our top sellers are **MADE IN GERMANY**. In this way we take responsibility for our environment, employees and society. On request, with financial climate contribution.

Innovative and customer-orientated, we are always there for you with our specialist consultants nationally and internationally.

We are represented both in Germany and at the international cleaning industry trade fairs and beyond. Here we regularly present our innovative new products.

Our digital and analogue marketing materials as well as sales documents are available in multiple languages: in German, English and French.

Our products are used in over 60 countries worldwide and offer you the right solution for every cleaning task.

More than three million products leave our production facility every year in the direction of our customers.

An excellent price-performance ratio and the best quality – that is our promise to you.

We guarantee fast delivery and high availability of all products thanks to perpetually stockpiling over 15,000 machines.

Spare parts and accessories can be ordered around the clock in our online spare parts shop: [shop.sprintus.eu](http://shop.sprintus.eu)

# SUSTAINABILITY

WE BEAR RESPONSIBILITY

**A**s a highly innovative family business, we assume responsibility. Both every single one of our employees as well as we as a company. Our environment, resources and our society are very important to us. That's why we strive every day to deal with this in a sustainable and responsible manner. This means taking responsibility in economic, social and ecological terms. We assume responsibility for our products, resources, production and supply chain, employees and society. For us, above all, this means never standing still, but always being on an optimisation course.

## Our Product range

**A**nyone who uses our professional cleaning equipment already makes a significant contribution to the issue of sustainability. Because our product portfolio serves the cleaning and thus the preservation of premises and objects. Our high-quality products are energy-saving, resource-saving and particularly quiet. They achieve a perfect cleaning result. Thanks to a multiple filtration system, including a HEPA 13 filter cartridge and filter bag in our ERA model series, they guarantee extremely clean blow-out air and protect the user and all persons in the environment.

## Our Products

**W**hen developing and designing our products, their outstanding quality and functionality comes first. At the same time, we place great importance in making them as sustainable and resource-saving as possible.

Already today, the proportion of recycled plastic in our Floory and our ERA model series is over 50 %. In the future, we will consistently reduce the proportion of new plastics in our products and, while maintaining the quality and functionality of our products, replace them with recycle plastic.

We also offer selected products with financial climate contribution on request. For these, we have carried out a calculation of CO<sub>2</sub> emissions based on the Greenhouse Gas Protocol and offset them by supporting internationally recognised climate protection projects.

In addition to the compact, ergonomic and lightweight design, the durability of our extremely robust and resistant products also plays an important role in terms of sustainability. Strict test procedures ensure an extra long service life of the motor.

With the efficient and energy-saving 700 watt motors of the ERA TEC and ERA PRO, our customers benefit from an extremely low sound pressure level of only 49 [dB]. With the powerful cordless dry vacuum cleaner ERA iGO, equipped with two 18V batteries and a 300W EC motor, the sound pressure level is only 55 [dB]. Right from product development, we make sure that repairs are easy to carry out. For this purpose, we also offer our customers rapid spare parts availability within 48 hours as well as a very wide range of spare parts. However, sustainability plays an important role not only in the development and production of products but also in their disposal. Our products are therefore made of recyclable materials.

## Our Resources

**W**e pursue the goal of minimising our ecological footprint. That is why we use our finite resources as efficiently as possible and at the same time rely on renewable energies. Our photovoltaic system at our company location in South Germany produces approx. 550 MWh of electricity per year. In 20 years, the plant will save as much CO<sub>2</sub> as 2,671 beech trees store over the course of 55 years. Our customers and employees also have their own charging stations at their disposal, where they can charge their electric vehicles for free. Our location is also equipped with LED lighting and we attach great importance to the use of green electricity.

Through increasingly digital conferences, we are reducing business travel to a minimum and thus also the greenhouse gas emissions caused by train, car and plane. We reduce product packaging to the bare essentials, rely primarily on cardboard packaging material and avoid packaging waste from local suppliers to the furthest extent possible, for example, by using special transport boxes. As part of the delivery to our customers, we pay attention to a 100% climate-neutral parcel shipping.

## Our Production

**A**s a German company, we are very proud to manufacture our top products at our company headquarters in Germany. In 2024, we will be expanding our production and logistics area to a total of 10,000 m<sup>2</sup>. With our new assembly and logistics centre, we are guaranteeing spatial growth opportunities for the coming years at our headquarters. In addition, the majority of the added value of our entire product range takes place at our German headquarters, from the development of our products to marketing and sales. We cultivate long-standing relationships and reliable, honest partnerships with our suppliers. When selecting our suppliers, they undergo a careful scrutinised with regard to social and ecological factors.

## Our Employees

**W**ith indispensable expertise and passion, our employees are committed to our company and our customers every day. They have made SPRINTUS and its high-quality innovative products what they are today. As a company, we bear responsibility for our employees, the most important asset of our company. We guarantee secure jobs through successful products and responsible action and do everything we can to ensure the best possible working environment, regardless of if this concerns further training opportunities, the compatibility of work and family or the health of our employees. Ergonomic, modern workplaces are a matter of course for us. For a positive working atmosphere, regular team building measures and company events are important to us. As an expanding family business, we are pleased to count numerous long-standing employees.

## Our Company

**W**ith the action we take on the entrepreneurial level, we bear far more responsibility than just for SPRINTUS as a company and our employees. Sustainable action has an impact across company and national borders. That is why we take responsibility for the entire society.

## Our Sustainability goals

**F**or us, assuming responsibility in ecological, social and economic terms means always being on course for optimisation. We are not only a company with financial climate contribution, but also offer sustainable products. On the basis of a holistic climate strategy, we were able to carry out a comprehensive analysis of the carbon footprint of our company and selected products. Subsequently, measures were taken to reduce and offset CO<sub>2</sub> emissions by supporting internationally recognised climate-protection projects.

# CLIMATE CONTRIBUTION

We offer on request products with financial climate contribution.

For selected products, in accordance with the Greenhouse Gas Protocol we have also determined the CO<sub>2</sub> emissions on the basis of the "Cradle-to-customer plus end-of-life" approach. This takes into account all emissions from the extraction and preparation of the raw materials and packaging, the production and delivery of the product to the customer's factory gate and relevant emissions from the disposal of the product and the packaging.

Based on this calculation, from now on, when you purchase select products, you will have the choice of purchasing them as products with financial climate contribution. We take care of offsetting the emissions concerned. In the catalogue, the products are marked with the "Available with financial climate contribution" icon. We offer the following products.

## Dry vacuum cleaners:

Floory ZERO (page 22)

ERA EVO ZERO (page 26)

ERA TEC ZERO (page 28)

ERA PRO ZERO (page 30)

ERA iGO ZERO (page 34)

## Mop covers:

Basic PRO ZERO, 40 cm  
Basic PRO ZERO, 50 cm (page 135)

Premium PRO ZERO, 40 cm  
Premium PRO ZERO, 50 cm (page 135)

Classic PRO ZERO, 40 cm  
Classic PRO ZERO, 50 cm (page 135)

Excellent ZERO, 40 cm  
Excellent ZERO, 50 cm (page 137)

By purchasing products with financial climate contribution, you are making a contribution to global climate protection and supporting recognised climate protection projects. You are also supporting the achievement of global sustainability targets (sustainable development goals) such as combating poverty and improving living conditions in threshold and developing countries.

For us, taking responsibility means developing and producing sustainable resource-saving products. We produce our top products at our company headquarters in Germany. Moreover, we make sure to use our resources as efficiently as possible and at the same time rely on renewable energies.

In our view, the move towards offsetting, in addition to avoiding and reducing emissions, is a crucial step in climate action. So we have determined the CO<sub>2</sub> emissions for our company and selected products. Based on this, we have taken measures to avoid and reduce them. We have been able to offset unavoidable emissions thanks to the support of internationally recognised carbon offset projects. In this context, together we work with [ClimatePartner](#).

## We are a company with financial climate contribution.

We have determined our company's CO<sub>2</sub> footprint in accordance with the guidelines of the Greenhouse Gas Protocol. Here the total emissions were divided into three categories (scopes).

**Scope 1** consists of all emissions directly generated by our company, for example by our company's own vehicle fleet.

**Scope 2** covers emissions arising from purchased energy such as electricity, whereas

**Scope 3** covers indirect emissions such as the employees' commute to work.

## Reforestation in Nicaragua

**F**orests form the basis of our lives and are among the most important CO<sub>2</sub> reservoirs on the planet. This project in eastern Nicaragua has reforested 2,361 hectares with more than one million plants of a native bamboo species and protects an additional 1,000 hectares of ancient forest. A highly degraded landscape has thus been transformed into a diverse ecosystem in order to curb global warming.

## We support certified climate protection projects

**G**reenhouse gases such as CO<sub>2</sub> spread evenly in the atmosphere. So the concentration of greenhouse gases is about the same all over the earth. Emissions that cannot be avoided locally may be offset by climate protection projects at another location. These significantly reduce greenhouse gases and make a major contribution to combating global warming. To offset our CO<sub>2</sub> emissions, we support the following recognised climate protection projects that are certified according to international standards.

## Renewable energies in Asia

**O**ne-third of global greenhouse gas emissions are caused by burning fossil fuels such as coal and oil. These fossil fuels are not only finite, but also have serious effects on the climate. In order to reduce CO<sub>2</sub> emissions and meet the growing demand for energy, the promotion of renewable energy sources is essential. On the Asian continent, we support a portfolio of climate protection projects to drive the expansion of wind and solar energy, hydropower, as well as biogas and biomass.

ERA TEC / ERA PRO in ECO-Modus	
Example calculation:	
Number of vacuum cleaners per fleet	100
Input power (W)	250
Working days per annum	220
Operating time per day (h)	3
Energy costs per kWh* (€)	0,46
CO <sub>2</sub> emission per kWh** (g)	434
Annual energy saving compared with a traditional vacuum cleaner fleet***	<b>42.900 kWh</b>
Annual energy cost saving compared with a traditional vacuum cleaner fleet*** (= Energy saving * Energy costs)	<b>19.850 €</b>
Annual CO <sub>2</sub> saving* compared with traditional vacuum cleaner fleet	<b>18,6 t</b>

## ENERGY COSTS CALCULATOR

With SPriNTUS dry vacuum cleaners you will impress your customer with extremely low energy costs on his premises. At the same time, you will be automatically making a contribution to reducing CO<sub>2</sub> emissions. The ERA TEC and ERA PRO dry vacuum cleaners have a continuous electronic power control. So in ECO mode they can work with input power of only 250 Watts.

The use of a fleet of 100 ERA TECs or ERA PROs in ECO mode delivers the following maximum potential savings compared with the use of 100 traditional 900-Watt vacuum cleaners:

- \* Source: Electricity cost per kWh in July 2023 per Bundesverband der Energie- und Wasserwirtschaft (Federal Association of the Energy and Water Industries).
- \*\* Source: Greenhouse gas emissions in the German electricity mix in 2022 per Umweltbundesamt (Federal Environmental Agency)
- \*\*\* Traditional vacuum cleaners with 900 Watts.

A fleet of 100 ERA TECs or ERA PROs provides a **maximum annual saving of € 19,850 and 18,6 tonnes of CO<sub>2</sub>** compared with the use of 100 traditional 900 Watt vacuum cleaners.

# ARES

The entry-level of the professional dry vacuum cleaners.

- ① Tool-free exchange of engine filter
- ② Washable fleece filter basket
- ③ Tearproof, closable fleece filter for optimal dust intake
- ④ Comfortable suction-hose-click-system
- ⑤ Large back wheels for high stability
- ⑥ Standard 2in1 crevice-/upholstery nozzle

### Optional accessories:

Parquet nozzle 360 mm horsehair.  
Item-no. 111207

Tool-free exchange of horsehair strips.  
Item-no. 101104

The ARES, the compact entry-level model of the SPRiNTUS energy dry vacuum cleaners, convinces with its agility and quality, which clearly distinguish the ARES from other entry-level vacuum cleaners. A high suction power and an efficient 700 watt engine are must-haves for SPRiNTUS vacuum cleaners and allow the compact and reliable ARES to be a dynamic partner in the professional cleaning industry. Part of the extensive equipment are high quality aluminium tubes, which are in accordance with the high SPRiNTUS quality standards. The robust, 2,0 m long Memory-Flex vacuum hose and a 8 m power cord, ensure a operating radius of 10 m. Due to the standard 2in1 crevice and upholstery nozzle, even hard to reach places and delicate areas can be cleaned. Thanks to its compact size and extensive equipment, the SPRiNTUS ARES is a versatile dry vacuum, which can take on even larger cleaning challenges.

Standard parking position of the energy combi nozzle.

### TECHNICAL DATA

Voltage	220-240 V / 50 Hz
Max. Power	700 W
Sound pressure level	64 LpA [dB]
Container material	plastic
Container volume	10 Litres (gross)
Filter bag volume	7,5 Litres

# FLOORY

A top machine with an attractive price – swift, compact and reliable.

## MADE IN GERMANY

The powerful and energy-saving 700 watt engine ensures an excellent suction power at a low noise level and highly efficient dirt absorption with its 11 l container volume.

As with all other SPRINTUS products, the design and development are of high quality and practical in every detail. With our FLOORY, the user receives a perfect all-round package, a reliable and economic partner for hard floors and carpet. Aluminium tube, elastic bumpers and easy emptying. The 10 m power cord and the 2 m step resistant suction hose without memory effect ensures maximum maneuverability.

HEPA13 fleece filter basket as standard for bagless vacuuming.  
Item-no. 114118

HEPA 13 fleece filter bag.  
Item-no. 106061

2in1 crevice-/ upholstery nozzle.  
Item-no. 115127

Closable, voluminous cable hook.

Power regulation adjustable to all types of surfaces.

Large foot switch for turning on and off without bending down.

Maximum ergonomics: with a weight of only 4,2 kg, the Floory can comfortably be carried with one hand.

TECHNICAL DATA

# The new **ERA** of cleaning

## Discover the new age of professional cleaning.

The ERA series sets new standards in the industry and symbolises a new era in professional cleaning. Unprecedented features find their way into the model series, which consists of the three mains-powered models ERA EVO, TEC and PRO with integrated cable winder and the ERA iGO cordless vacuum cleaner.

The models differ primarily in terms of equipment. In addition to the striking, modern and open-plan design, all models respectively offer whisper-quiet operation. The top model, ERA TEC, shines with unique selling points, such as a USB connection including a mobile phone charging function and a filter compartment for spare filter bags. The ERA PRO with an integrated touch display is aligning itself with the topic of Industry 4.0 for the first time and is the world's first digital dry vacuum cleaner with a Bluetooth connection and a cloud-based fleet management system. The cordless ERA iGO guarantees maximum flexibility and mobility. The 36 V Li-ion version combines self-sufficient working with the unique features of the ERA model series.

All four models are produced at the SPRINTUS headquarters in southern Germany and are characterised by a recycled content of 50 percent. We not only design and produce the four models as sustainably and resource-efficiently as possible, but also offer you the opportunity to purchase them with financial climate contribution if you wish.

MADE IN GERMANY

ERA EVO

ERA TEC

ERA PRO

ERA iGO

### ERA EVO

Versatile all-rounder with triple HEPA13 filtration.

### ERA TEC

Guarantees top performance at an incredibly quiet 49 dB in ECO mode.

### ERA PRO

Sets new standards as the world's first digital dry vacuum cleaner.

### ERA iGO

Wireless, self-sufficient working and maximum flexibility.

# ERA EVO

The price-performance winner.

MADE IN GERMANY

The quiet ERA EVO is versatile, compact, reliable and a true powerhouse. The integrated cable rewind makes the safe and practical storage of the signal-red 10m power cord possible. If required, you can change the cable in just a few simple steps and without using any tools.

High-quality filter media, such as the standard fleece filter basket, the HEPA13 filter bag, and the HEPA13 filter cartridge guarantee clean blow-out air at all times and are particularly suitable for those who suffer from allergies or for the cleaning of sensitive areas, such as hospitals, nursing homes and kindergartens. The extra-large, tear-resistant 9-litre fleece filter bag guarantees a high volume of dirt absorption and long working intervals, without frequent and annoying filter bag changes.

The power regulation that can be adjusted on the device allows for the EVO to be adapted to any floor covering. And what's best: already for small order quantities, we equip the ERA EVO with your logo and strengthen your company image and brand.

## Features

Standard operating LED in blue.

Your brand. Your company image. We imprint your logo.

Integrated cable rewind with open design.

Tool-free cable changing.

The ERA TEC is consistently continuing the innovative ERA series, thereby guaranteeing top performance at an incredibly quiet 49 dB in ECO mode. The TEC can therefore be used around the clock, at any time of the day, even in busy and sensitive areas, such as hotels or in office rooms. Should it be necessary, the spare filter bag compartment saves unnecessary legwork and loss of valuable working time should no replacement filter bags be close at hand. The standard USB port and the optional storage box allow you to charge your mobile phone directly on the vacuum cleaner without setting aside your mobile anywhere on the property or losing sight of it. Alternatively, the storage box is also suitable as a practical beverage holder, for cleaning agents, or for carrying microfiber cloths. The fill level indicator in red indicates that the filter bag needs to be changed or clogging.

Telescopic tube, stainless steel (0.6-1.0 m).

# ERA PRO

The world's first dry vacuum cleaner that rises to the challenges of Industry 4.0.

Our free ERA PRO app is available from the App Store and Play Store. For download, please scan the respective QR code.

With the first-time digitisation of commercial dry vacuum cleaners, the ERA PRO dry vacuum cleaner by SPRINTUS sets new benchmarks in professional cleaning.

The interactive touch display can be customised with your logo using the SPRINTUS APP. In this way, new customers can be acquired, and the corporate design can be adapted and underscored. A language selection (EU, ENG, FR, IT) can be made. In the event of a fault, solution suggestions are shown on the display. In combination with the integrated Bluetooth interface, important device data such as operating hours, daily run time, loca-

tion data can be transferred into the cloud-based fleet management and connected to commonly used ERP systems. Run times can be checked with the touch of a button, and property calculations can be adapted. In the display, additional data can be stored and called up, e.g. property, user and customer data. The user can call up spare parts drawings, user manuals, data sheets and other device data at any time.

Via the interactive touch display, run times, faults, maintenance activities, as well as the date and time can be read. The home screen is individually adjustable. For example, property and user data can be continuously input and displayed.

## Web portal

SPRINTUS browser-based fleet management system allows you to centrally manage all ERA PRO dry vacuum cleaners and keep an eye on everything at all times. In the general overview, all basic information concerning your ERA PRO is shown in a compact manner. You can call up data relevant for each ERA PRO, such as location, property names, users, daily run times, maintenance dates, such as the DGUV V3 for example, or faults at any time. With the synchronisation via the SPRINTUS APP, all data is displayed in real time in the web portal.

### Reports

In the detail view, you have access to all relevant reports concerning your ERA PRO. This helps you to make the right decisions and keep your fleet in optimal operational condition. Other cleaning equipment located on the property can be created and be centrally managed via the web portal.

### Your advantages at a glance:

- Overview of the status and run times of all devices
- Faults and maintenances are displayed individually
- Visualisation of the devices by map on a property basis
- Extensive software functions and reports
- Professional, customisable interface for all common ERP systems

Overview of all devices, including location, status messages and user information.

Image on the right: Cleaning equipment detailed overview.

Cleaning equipment, teams, customers, and locations can be displayed on the map.

Detailed view of a device  
- Usage times  
- Run times  
- Location

Detailed map view

Your own logo and texts can be changed directly on the device.

### The new generation of brush vacuum cleaners:

Unbeatable comfort! The ERA PRO in combination with the electric suction brush achieves excellent results on carpets and carpeted floors. Thanks to its permanent-magnet electric drive and high-level vacuum, it cleans deeply and gently. The carpet is literally combed out by the rotating brush and dirt is transported towards the suction nozzle and sucked in. Even tenacious dirt in the carpet, such as hair or threads, is absorbed. With the remote control on the Ergo handle, you can conveniently switch the brush on and off at the touch of a button. Thanks to the stainless-steel telescopic tube, the working height can be conveniently adjusted to any user and makes it possible to work efficiently and free of fatigue.

The figure shows an ERA PRO set including an electric vacuum brush.

**Tip** ERA PRO-Set including an electric vacuum brush. Item-no. 117041

# ERA iGO

Cordless, 55 [dB] silent dry vacuum cleaner as 36 V Li-Ion version

High-quality HEPA 13 filter media constantly guarantee clean blow-out air and are suitable for persons suffering from allergies as well as for cleaning sensitive areas such as hospitals, care centers or kindergardens.

**MADE IN GERMANY**

Available with financial  
**climate contribution**  
ClimatePartner

50% RECYCLED MATERIAL

**ZERO**

LI-ION TECHNOLOGY **36 V**  
Battery Power

HEPA 13 filter cartridge.  
HEPA 14 optional.  
Changeable without any tools.

**TIP**

Motor protection filter.

HEPA 13 fleece filter basket.

HEPA 13 fleece filter bag.

4 accessory slots and  
3 standard parking positions.

The innovative cordless dry vacuum cleaner ERA iGO guarantees maximum flexibility and mobility. The 36 V Li-Ion version combines cordless and self-sufficient work with the unique features of the ERA model series.

The vacuum cleaner is provided with two 18 volt rechargeable batteries and a 300 watt EC motor, enabling excellent cleaning results. The 7,5 Ah batteries connected in series guarantee self-sufficient work of up to 90 minutes.

The power between 150 - 300 watts can be manually adjusted. Thus, the vacuum suction can be easily customized to the corresponding floor covering at any time.

Double - fast charger.  
Charging time 5 Ah batteries approx. 1 hour.  
7.5 Ah batteries approx. 1.5 hours.

Your brand. Your company image.  
We imprint your logo.

Owing to a display on the motor head the power level as well as the battery status can be constantly monitored.

The ERA iGO also impresses with its extremely low sound pressure level of only 60 [dB] or 55 [dB] in ECO mode. This makes it ideally suitable for cleaning heavily frequented areas such as hotels or offices.

The extra-large, tear-resistant 9-liter fleece filter bag guarantees a high dirt absorption capacity and long working intervals avoiding frequent changes of filter bags. In addition, the ERA iGO strengthens your brand and corporate presence thanks to a customizable company logo.

The new cordless dry vacuum cleaner is MADE IN GERMANY. It is manufactured at the SPRIINTUS headquarters in southern Germany and can also be purchased as a product with financial climate contribution.

**Features**

Handle including an extendable carrying strap.

Optionally with 2 x 18 V / 5 Ah up to **60 min.** or 2 x 18 V / 7.5 Ah up to **90 min.** or without batteries.

Display indicating remaining time in percent.

Variable power regulation from 150 - 300 watts.  
50% LpA: 55 dB(A) | 100% LpA: 60 dB(A)

LED indicator for blockages.

Standard with anti-static equipment ESD

Suction hose 2,5 m antistatic.

Ø 120 mm

Ø 60 mm

The extra storage space for filter bags saves time and enables changing the filter bag, especially when running out of stock.

Extra large rubberized wheels and casters provide high grade agility and stability.

Thanks to the integrated, extendable carrying strap, you can easily carry the lightweight and compact vacuum cleaner over your shoulder especially in confined spaces and stairwells.

The two batteries installed on the motor head create a low center of gravity, which significantly reduces the vacuum cleaner's susceptibility to tip over.

# MAXIMUS pt

High-performance dry vacuum cleaner with an automated power socket for electric tools.

## Suggested Use

The Maximus pt is the ideal companion for any construction craftsmen. With its compact dimensions and low weight, it is perfect for electricians, carpenters or exhibition builders. Wherever a handy, lightweight device is required for fast working. Its enormous suction power guarantees a clean, dust-free workplace on location or in the shop. Any power tool can be plugged into the Maximus pt through the standardized socket & rubber

adaptor. The automated socket then activates the vacuum simultaneously with the connected tool. For example when drilling, the vacuum automatically shuts down when the drill is switched off. The included 360 mm floor nozzle ensures performance on a wide range of hard floor and carpeted surfaces. The Maximus pt is universally usable for dry dust and can also be operated without the filter bag.

## Features

- Enormous suction power
- Large operating radius with 7.5 m power cord and 2.5 m hose
- redary joint on the vacuum hose for hindrance-free maneuvering
- Built-in output regulator automatically adjusts to the type of surface
- Mess-free waste disposal with the sealable fleece filter bag
- Additional fine dust filtration possible with the EPA12 filter cartridge
- Light weight for convenient, single-handed transport
- Accessories storage on the device
- 220-240 Volt power socket up to 1500 watts with automatic activation
- Large, lockable cable hook

With the multi-tiered power tool adaptor, the vacuum hose can be fitted to any diameter. For example: portable circular saws.

Automated power socket for the use of power tools.

Maximum ergonomics: the vacuum and all its accessories can be transported in one hand.

Large, lockable cable hook, thanks to its swivel joint.

Parking position for accessories on the side of the device.

Four storage slots for accessories on the backside.

**Accessory:** Combi nozzle for textile coverings or carpets.  
Item-no. 111307

# BOOSTIX

## Backpack vacuum cleaner.

Available with power cord or wireless with a 36 V lithium ion technology.

Ideal for cleaning staircases, public transport vehicles or large halls fitted with seating, e.g. cinemas and theatres. The low weight in combination with a high level of carrying comfort makes long working intervals possible. The fully padded and ergonomic carrying system with standard chest strap may be individually adapted to each user. The well-designed carrying system ensures a pleasant clearance between your back and the backpack vacuum cleaner. The air can circulate, and heat build-up is avoided.

### BOOSTIX iGO

High efficiency and extra long motor life due to brushless EC motor.

Two series-connected 18 V batteries guarantee **up to 42 minutes** of running time. The fast charger ensures a battery charging time of just under an hour.

Optional: 7.5 Ah with a battery life of **up to 60 minutes**.  
Art. no. 119122

MADE IN GERMANY

# MEDUSA

Industrial battery-powered sweeper for the quick, quiet and cordless cleaning of all surfaces, indoor and outdoor. The full floating main cylinder brush individually adapts to any surface, whether hard surface or carpet.

### Suggested Use

Ideal for entryways of all kinds, hallways, staircases, driveways, warehouse and office areas, airports and train stations.

The Medusa is a battery-powered machine developed specifically with professional users in mind. It has a working width of 37 cm, including its two inwards-rotating side brushes.

Objects with a diameter of up to 2 cm can be easily vacuumed during operation. With its light weight and compact dimensions, the Medusa is designed for hard-to-reach spaces. The side brushes enable a complete and thorough cleaning along edges and even in the smallest corners. The powerful Lithium-Ion battery (without memory effect) with 10.8 V and 1.5 Ah allows an operation time of approx. 45 minutes per battery. A second, optional battery can be directly stored and carried on the machine itself. Quick-charging unit with a charging time of only 90 minutes is included with purchase.

### Features

- Large foot pedal for activation without bending over
- Main cylinder brush and side brushes can be replaced without the use of tools
- Aluminium telescopic handle for an optimum work position
- Rubber wheels leave no traces, even on sensitive surfaces
- Enormous waste collection tray with 2 litres capacity
- Changeable bristled rim on the underside of the housing
- Low noise volume, and therefore excellent for use during business hours
- Space-saving storage position
- Compact, light, and easy-to-handle for any user
- **TIP** Can be attached to the PuriX / Matrix cleaning trolleys.

Cordless, efficient, compact and agile.

Replacement of main cylinder brush and side brushes is possible without use of tools.

rotating cornerbrushes for perfect results in corners and edges.

Especially large waste collection tray with a volume of 2 litres.

① Standard quick charging unit. Charging time of 90 minutes per battery. Efficient regardless of batteries level at the time of charging. Fully-equipped with two batteries, the operation time lengthens to 90 minutes.

② Space-saving storage position.

③ Ergonomic handle for working without tiring.

# ARTOS High-quality, powerful wet / dry vacuum cleaner at a fair price.

## Suggested Use

The vacuum cleaner is perfect for cleaning buildings, industrial facilities and workshops due to its power, compact size and robust design.

The wet / dry vacuum cleaner Artos in the 30-litre class impresses thanks to its high quality and sensational value for money. Innovative features, such as the cyclone water separation system with a reliable floater system, sets the Artos clearly apart from the other wet / dry vacuum cleaner models in the entry-level class. The wide chassis and long wheelbase make the Artos a particularly agile machine, which can be manoeuvred easily over the surface to be cleaned. The 360 mm wide floor nozzle included in the

basic configuration is extremely user-friendly and can be converted from a wet floor nozzle to a dry floor nozzle by simply exchanging the rubber strips for brush strips. High-quality components, such as the strong stainless-steel container and the 1200 Watt motor, make the Artos a robust and reliable partner in professional cleaning.

TECHNICAL DATA	
Voltage	220-240 V / 50 Hz
Max. power	1200 W
Sound pressure level	72 LpA [dB]
Volume flow rate	48 litres / sec.
Max. suction	230 mbar
Container material	stainless steel
Container volume	30 litres (gross)
Length of power cord	7,5 m
Length of hose	2,5 m
Diameter of hose	32 mm
Diameter of tubes	32 mm
Weight	8,9 kg
Dimensions (L x W x H)	42 x 38 x 63 cm

Wet floor nozzle 360 mm.  
Item-no. 101087

Easy to exchange rubber strips, no tools required.  
Item-no. 101101

Always close to the action: four accessories slots and a park position for attachments on the back of the vacuum.

Easy hose click system.

The illustration shows the patented water separation system with cyclone unit.  
Item-no. 116105

Due to the twist of the intake nozzle, the spray-fog is consequently diverted along the inner container wall. Additional filters are no longer necessary. The reliable floater system even reacts during heavy foam growth. Cooling air slots located on the side ensure the consistent separation of cooling and processed air.

Cyclone unit.  
Item-no. 116105

HEPA 13 fine dust filter cartridge.  
Item-no. 116106

The blower function is integrated on the top of the appliance and is activated simply by attaching the vacuum hose.

# WATERKING series

Quiet and powerful wet and dry vacuum cleaners, the ideal companions for thorough cleaning. With 260 mbar suction power at 70 L/Sec, the two models **Waterking** and **Waterking XL** are extremely powerful and enable excellent area performance. Thanks to the mechanical output regulator, suction power can be adapted to any kind of flooring. With the integrated blower function, filters and work benches can be blown clean, or wet surfaces can be blown dry. On-device storage for the hose, power cord and

accessories, as well as a parking position for the tube and an ergonomic handle, ensure optimal handling and make the two devices fit for professional use. A high-performance power socket located on the head allows for the use of further cleaning machines directly through the vacuum.

## Characteristics

- ▶ Outstanding water/dirt intake
- ▶ Consistent separation of intake air and processed air
- ▶ Reliable floating gauge even reacts during heavy foam growth
- ▶ Cyclone water separation system
- ▶ Rotary joint on the vacuum hose for hindrance-free maneuvering
- ▶ Ideally suited for dry vacuuming in combination with the fine dust filter cartridge and the fleece filter bag
- ▶ Mess-free waste disposal thanks to the closeable fleece filter bag
- ▶ Robust undercarriage with large swivel casters and wheels

## Features

The blower function is integrated into the back side of the device and is activated by simply inserting the vacuum hose.

A powerful electrical outlet enables the use of additional cleaning tools directly through the vacuum cleaner.

Thanks to the mechanical output regulator, suction power can be adapted to any kind of flooring.

## Patented water separation system.

Due to the twist of the intake nozzle, the spray-fog is consequently diverted along the inner container wall. Additional filters are no longer necessary. The reliable floater system even reacts during heavy foam growth. Cooling air slots located on the side ensure the consistent separation of cooling and processed air.

Cyclone insert for wet vacuuming.

HEPA 13 fine dust Filter cartridge for dry vacuuming.

Always close to the action: Four accessory slots and a park position for attachments on the back of the vacuum

Easy, tool-free change of rubber lips.

### WATERKING

- ▶ 30 liters container volume
- ▶ 360 mm wide floor nozzles

### WATERKING XL

- ▶ 45 liters container volume
- ▶ 450 mm wide floor nozzles
- ▶ Innovative locking brake on the sturdy chassis
- ▶ Large, easy-to-remove push bar
- ▶ Drain hose for comfortably emptying the container
- ▶ Rubber-coated swivel casters and back wheels
- ▶ High volume flow rate thanks to 38 mm hose and tube diameter

## Additional equipment for WATERKING XL

Wastewater drain hose for easy emptying of the container.

The locking brake can be operated from either side and prevents the vacuum cleaner from rolling away.

Sturdy chassis of impact-resistant plastic.

Large rubber-coated swivel casters Ø 100 mm and back wheels Ø 180 mm.

Tool free removable push bar.

# N series

The N series from SPiRiTUS consists of three powerful wet and dry vacuum cleaners with 55-to-80-liter container volumes. They are equipped with two to three individually adjustable turbines. This makes them extremely powerful and adaptable to any application. The fine dust filter cartridge, fleece filter basket and the 450 mm extra-wide floor nozzles included in the accessories ensure an impressive area output. The sturdy chassis with metal casters and large rubbercoated wheels ensures problem-free working, even on sensitive surfaces.

The robust stainless steel wet and dry vacuum cleaners **N 55/2 E** and **N 77/3 E** are used by facilities services, in maintenance and the food service industry. They feature a conven-

ient tilting function that allows the container to be emptied quickly and easily. Also available is an optional 650 mm gangway nozzle for wet surfaces, which can be mounted on the undercarriage and operated from the back-side of the device.

The **N 80/2 K** is equipped with a particularly durable plastic container and is made for tough use in industry and trade. Its integrated wastewater drain hose makes it especially suitable for frequent use on wet and large surfaces.

## Features

Easy, tool-free change of rubber lips.

The fine dust cartridge, fleece filter basket and fleece filter bag guarantee an extra high filtration rate.

Larger rubber coated wheels for high comfort and silent running, even on sensitive floors.

## Characteristics

- ▶ Individually adjustable turbines
- ▶ 15 m power cord for efficient work
- ▶ Robust undercarriage, stable swivel casters, rubber-coated wheels
- ▶ Complete set of accessories
- ▶ Stainless steel push handle
- ▶ Extra-wide floor nozzles 450 mm

# KETOS series

The two KETOS models are bursting with strength. These are extremely powerful, modern and commercial professional vacuum cleaners of top class and thus are made for heavy daily use of contractors, industry, maintenance service and food service. The in series connected high performance motors attain a suction power of 300 mbar at a volume flow of 70 litres/sec. per motor. They create a kind of turbo charging effect, which triggers the machine's intense power spectrum at a sound pressure level of only 69 LpA [dB] while operating at full capacity.

With the **KETOS 56/2 E** and **KETOS 81/2 K**, you work sustainably and efficiently at the cutting-edge of technology

and can choose between the Economy and Turbo settings according to the demand. The reliable, patent-pending cyclone water separation system assures optimal water intake. Furthermore, the KETOS models are equipped with a blower function on the back side of the machine, which is activated simply by inserting the vacuum hose, with a robust undercarriage, metal swivel casters and rubber-coated wheels, a large lockable cable hook and an additional blower hose. The filter cartridge is easily removable. Thus, the machine's fine dust collection class can be upgraded to EPA12.

## Features

The two devices are equipped with an easily removable filter cartridge on the exhaust side, upgradable to EPA12.

Clever solution: Large, lockable cable hook, thanks to its swivel joint.

Switch on the face of the machine lets you choose between Economy and Turbo settings. Thanks to the mechanical output regulator, suction power can be adapted to any kind of flooring.

## Characteristics

- ▶ Extremely high-performance with 300 mbar suction power
- ▶ Economy and Turbo power settings
- ▶ Mechanical power regulation
- ▶ Low noise generation, only 69 LpA [dB]
- ▶ Robust chassis, stable metal swivel casters, rubber-coated wheels
- ▶ Systematically separated cool and processed air
- ▶ All accessories stored at the backside of device
- ▶ Push bar and vacuum tube made of stainless steel
- ▶ Cyclone water separation system
- ▶ Unique, lockable cable hook
- ▶ Blower function

## Patented water separation system.

Due to the twist of the intake nozzle, the spray-fog is consequently diverted along the inner container wall. Additional filters are no longer necessary. The reliable floater system even reacts during heavy foam growth. Cooling air slots located on the side ensure the consistent separation of cooling and processed air.

Cyclone insert for wet vacuuming.

HEPA 13 filter cartridge for dry vacuuming.

### KETOS 56/2 E

- ▶ 55 liters container volume
- ▶ Solid stainless steel container
- ▶ Emptying by tipping the body or via the wastewater drain hose

### KETOS 81/2 K

- ▶ 80 liters container volume
- ▶ Wear-resistant plastic container
- ▶ Emptying via the wastewater drain hose
- ▶ Complete drainage of wastewater

Additional equipment for KETOS 56/2 E

The KETOS can either be tilted or conveniently emptied via the wastewater drain hose.

**Optional for the Ketos 56/2 E**  
The 650 mm gangway nozzle can be conveniently operated by foot pedal from the rear of the vacuum cleaner. Item no. 102010

# N51/1 KPS

High-performance pump vacuum with an extremely high flow volume.

Application example:  
Flat roof sanitation

## Suggested Use

Pumping out water after floods or water main breaks, washing flat roofs, pond or pool sanitation, and other cleaning duties.

The N 51/1 KPS, with its 50 litre container volume, is ideal for tough, professional use. The integrated pump with a flow volume of up to 14,000 litres per hour can be directly attached to the vacuum's power socket. A filter net prevents leaves, wood, and smaller objects from entering the container and prevents blockages.

The filter net can be conveniently emptied via the robust zipper. Wastewater is continually drained from the container through the provided 10 m wastewater hose.

The C-tube connection of the wastewater hose is a standardized size that also fits fire department and technical emergency service (THW) hoses.

The N 51/1 KPS can also be used as a normal vacuum cleaner and achieves a suction power of 230 mbar.

## Features

- Exceptionally robust container made of impact-proof plastic
- High-performance pump with a flow volume of up to 14,000 Litres per hour
- Separate filter net for rough particles
- 10 m wastewater hose with C-tube connection
- Also suitable for normal vacuum use

The powerful pump inside the vacuum cleaner has a capacity of up to 14,000 litres of waste water output per hour.

The 360 mm wide wet floor nozzle, pictured being used on a flat roof.

C-tube connection for 10 m wastewater hose, suitable for fire service hose.

The filter net protects the pump from leaves and other coarse particles.

High safety due to the standard circuit breaker.

## TECHNICAL DATA

Voltage	220-240 V / 50 Hz
Total power	2200 W
Power consumption (device)	1300 W
Power consumption (pump)	900 W
Sound pressure level	70LpA [dB]
Max. Suction	230 mbar
Volume flow rate	70 litres / sec.
Pump capacity	14.000 litres / h
Pumping head	9 m
Container material	plastic
Container volume	50 litres (gross)
Wastewater connection	c-tube
Length of vacuum hose	6 m
Length of discharge hose	10 m
Diameter of hose	38 mm
Diameter of tubes	38 mm
Particle size	20 mm
Length of power cord	7,5 m
Weight	15 kg
Dimensions (L x W x H)	50 x 44 x 65 cm

Item-no.	UK	EU
<b>N 51/1 KPS</b>	110500	110003

4 x 0,5 m suction tube plastic ø 38 mm, 6 m suction hose, 10 m discharge hose, integrated wastewater pump, filter net with zipper, pond nozzle, crevice nozzle, wet floor nozzle 360 mm, Power cord incl. GFCI interrupter

## STANDARD KIT:

Suction tube plastic (1 piece)	110047
Filter net	110048
7 m suction hose	110049
10 m suction hose extension	110053
Power cord incl. GFCI interrupter	110091 110072

ACCESSORIES OVERVIEW, see page 108.

## Operating principle:

Water is pumped in through the vacuum hose.

The integrated water pump draws the collected wastewater immediately through the C-tube connection and out through the backside of the device.

The transparent pond nozzle is also well-suited for pool cleaning and for removing water after floods.

# Heros Fire service vacuum

Powerful, compact and equipped with the latest technology.

## Suggested Use

Pumping out of water after floods, fire damage restoration, tube damage, flat roof refurbishment, pond or pool cleaning and other cleaning tasks.

This modern professional vacuum pump is specifically designed for fire brigades and federal agencies for technical relief (THW), and long-term use with all types of floods and high water. Contaminated wastewater, sludge, stones, wood and other non-flammable solids and suspended matter can be efficiently sucked away. Featuring a range of close to 20 metres, emphasis is on the highest degree of safety and performance.

The Heros comes with IP 68 connectors with bayonet retaining rings and protective covers, safety switches and an IP 54 socket as standard.

The impact-resistant and compact plastic tank allows optimum mobility with a low overall weight of only 19 kg. Further standard fittings such as the separate connectible pump, solid rubberised wheels with practical locking brakes, and fire brigade-approved Storz coupling provides you with a reliable partner at your side.

TECHNICAL DATA	
Voltage	220-240 V / 50 Hz

# CraftiX series

Maximum health protection in the case of hazardous dusts.

The new certified safety vacuum cleaners by SPRINTUS for dust classes L, M and H vacuum where hazardous dust is produced. Directly on the power tool. And all this with automatic filter cleaning with a consistently high level of suction power.

## Good reasons for efficient dust control.

Where power tools are used, dust is often produced. Not any type of dust, but harmful fine particles. The dust should be absorbed where it is formed, directly on the power tool.

This is exactly what the robust SPRINTUS safety vacuum cleaners are designed for. Whether on the construction site or in the workshop, they collect dusts that are hazardous to health at a constantly high level of suction power before it pollutes breathable air. In particular, fine dusts remain in the air we breathe in for a long time and can penetrate deep into the lung tissue. This can lead to asthma and other chronic lung diseases. For this reason, legislators also prescribe the use of certified safety vacuum cleaners at construction sites. With the CraftiX safety vacuum cleaners, you protect the user from these risks. In this way, sawing, drilling, cutting, milling and grinding work can be carried out efficiently and safely without hesitation.

## Your application is crucial.

What kind of safety vacuum cleaner is suitable for your application? The dust classes provide the answer to this question. Materials and their dusts are classified according to them and machines are certified, because the vacuum cleaners meet the corresponding requirements for dust control.

Dust class*	Maximum transmittance	Suitable for	Disposal
L	≤ 1,0%	Dusts with OEL** values > 1mg/m <sup>3</sup> Domestic dust, soil, lime	-
M	< 0,1%	Dusts with OEL** values ≥ 0,1mg/m <sup>3</sup> Wood, screed, primer coat and paint, plaster, cement, concrete, tile adhesive, paints such as latex and oil paints, quartz containing materials such as sand and pebbles	Low dust
H	< 0,005%	Dusts with OEL** values < 0,1mg/m <sup>3</sup> Carcinogenic dust, dust with pathogens, dust with bacteria	Dust free
Asbestos requirement	< 0,005%	Dusts with OEL** values < 0,1mg/m <sup>3</sup> Asbestos dust	Dust free

\*according to the standard: IEC/EN 60335-2-69 \*\*occupational exposure limit value

The table provides information about the maximum transmittance of a certified vacuum cleaner as well as the legal occupational exposure limit value of the dusts. Class-L dusts are classified as only slightly hazardous, those belonging to Class M are deemed hazardous and those belonging to Class H are regarded as extremely hazardous. No special regulations must be observed when disposing L-dusts. M-dusts, on the other hand, must be disposed of in a low dust manner and H-dusts as well as asbestos dusts must be disposed of in a dust free manner. Depending on the dust class, the use of fleece filter bags (Item-no. 102031) or special PE disposal bags (Item-no. 118138) and PE disposal bags asbestos (Item-no. 118169) for dust free disposal is recommended.

## The SPRiNTUS safety vacuum cleaners at a glance.

For an efficient control of dusts in dust class L, M and H inclusive asbestos dusts, we offer you the CraftiX model series with a total of six safety vacuum cleaners. In all dust classes, you have the choice between a model with a container volume of 35 and 50 litres.

With the CraftiX models you ensure maximum health protection of the user. The efficient filter cleaning ensures a permanently free filter with a perpetually high level of suction power. This saves you time and money because filter cleaning takes place automatically without suction current and power interruption, even in the case of extreme amounts of fine dust.

- For dusts of dust class L (page 63)
- Antistatic preparation for connecting an optional antistatic hose (Item-no. 118143) to prevent electrostatic charges
- Patented HEPA 13 cartridge filter

- For dusts of dust class L, M and H as well as asbestos dusts (page 63)
- Standard anti-static equipment for extracting large amounts of fine dust
- Patented HEPA 14 cartridge filter
- The suction power is monitored by a warning device with a acoustic and visual signal

- For dusts of dust class L and M (page 63)
- Standard anti-static equipment for extracting large amounts of fine dust
- Patented HEPA 13 cartridge filter
- The suction power is monitored by a warning device with a acoustic and visual signal

## Patented filter cleaning.

Dealing with hazardous dusts requires innovative product developments. The heart of the CraftiX is the patented HEPA 13 (dust class L, M) or HEPA 14 (dust class H) cartridge filter.

It consists of two independent filter chambers, which are cleaned one after the other. Suction current and suction power thus remain at a consistently high level even during cleaning, which guarantees permanent suction.

Filter cleaning is carried out by air backwashing and, thanks to the patented cartridge filter, ensures that the fine pores of the filter are freed from dust without leaving any residue. The maintenance and cleaning of the filter is no longer necessary and you save time and money.

Filter cleaning takes place automatically every 45 seconds. It is quieter than average and is therefore particularly user-friendly.

## CraftiX advantages at a glance.

Whether you opt for an SPRIINTUS safety vacuum cleaner for dust class L, M or H, all six models have these innovative features.

# CraftiX controls.

The suction power of the four CraftiX models of dust classes M and H is monitored by a warning device. After setting the smallest diameter used in the suction harness, the user is warned by an acoustic and visual signal if the required air flow is not reached. This avoids increased dust pollution of breathable air.

The power tool can be plugged directly into the vacuum cleaner thanks to the integrated socket. Due to the automatic switch on and off, the vacuum cleaner is started automatically or stopped with a lag of 5 seconds.

## CRAFTIX 35 M/H + 50 M/H

- ❶ Selector switch hose diameter.
- ❷ High safety due to warning LED and acoustic warning signal.

## CRAFTIX 35 M/L/H + 50 M/L/H

- ❸ On/off button automatic filter cleaning.
- ❹ Standard operation with infinitely adjustable power regulation.
- ❺ Automatic operation with connected power tool and infinitely variable power regulation.
- ❻ Socket for power tools up to a maximum of 2.200 watts.
- ❼ Customisation by way of printed logo..

Limitless customisation.

With your personal logo sign, your brand is visible everywhere. Not only do you increase your brand awareness, but you can also label devices with inventory numbers or assign them to individual users.

## Adapter plate for tool cases.

With only a single adapter plate from SPRINTUS you can attach tool cases of all common manufacturers to the Craftix (Systainer, metaBOX, Tstak Box, L-Boxx, MAKPAC). The optional adapter plate can be mounted and locked on the suction head without tools and ensures safe transport of the tool boxes. Despite the mounted tool case, all operating elements and accessory slots can be used without restriction.

# EM17EVO

New design. New smooth-running capability. Fully equipped.

## Suggested Use

The EM 17 EVO is perfect for hard daily use with its robust planetary gear.

The 10-litre water tank ensures that work is performed quickly and comfortably. Due to the tool-free disc exchange, the EM 17 EVO can be adapted to all surfaces without long waiting times.

In combination with the Queen Bonnet Pad, unparalleled cleaning results can be achieved on carpeted floors. For optimal results in case of intense and tough dirt, the device weight can be increased with the optional 14 kg additional weight.

Due to the large rubberised wheels, the machine does not leave any marks, even on vulnerable surfaces.

## Features

- Robust planetary gearbox
- Integrated 10-litre freshwater tank
- Tool-free change of brush and disc
- Changing of disks and brushes without the use of tools

Pad holder.

# HERCULES

Powerful, extremely robust and quietly running redary disc machine.

## Suggested Use

Intensive cleaning of all hard surfaces and carpeted surfaces.

The Hercules single disc machine is designed to offer an extremely silent running. It is a robust and easily operated single disc machine in the upper mid-range segment.

With its large, user-friendly and ergonomic control, the machine can easily be steered and is perfectly suited for intensive, basic and preservation cleaning. The powerful and maintenance-free steel planetary gear with 175 rpm capacity always has sufficient reserves to rapidly and thoroughly clean all hard surfaces as well as to shampoo textile surfaces. With its high entire weight of 48 kg, and the two optional 14 kg additional weights, the machine's total weight can easily be increased to 76 kg at any time as required. Ideal conditions for thorough cleaning of stubborn stains and dirt.

The Hercules offers you a durable, reliable and powerful all-rounder for flexible application on all surfaces with an outstanding price/performance ratio. The machine is equipped as standard with the full range of accessories, including a 12 litre fresh water tank, pad holder, as well as one shampooing and one scrubbing brush.

## Features

- Maintenance-free steel planetary gear
- Integrated 12 litre freshwater tank
- Tool-free changing of brushes and discs
- Robust, ergonomic handlebar

# HERCULES Duo Speed

Robust single disc machine with two working speeds (180 / 360 revolutions / min.) for efficient, fast and cost-effective cleaning and polishing.

**optionally with 180/360 revolutions / min.**

### Two in one

The Hercules Duo Speed combines the advantages of a slow and fast runner in only one device. Owing to its two working speeds, it is the perfect solution for efficient, fast and cost-effective cleaning and polishing.

As low-speed machine operated with 180 rpm, our new Hercules Duo Speed is ideal for basic cleaning of a wide variety of floor coverings. When changing the working speed to 360rpm, our robust single-disc machine also enables the crystallization of natural stone floors as well as polishing of

various floor coverings. The two working speeds can be easily switched with the integrated button on the motor head.

The Hercules Duo Speed is not only extremely versatile but also provides the same advantages and features of our well-established and high-quality Hercules single disc machine. The large, user-friendly and ergonomic control element makes the Hercules Duo Speed easy to operate.

The Hercules Duo Speed fulfils all conditions in order to clean heavily soiled surfaces. In addition by choosing the Hercules Duo Speed, you do not only benefit from an excellent price-performance ratio but also from a long-lasting, reliable and powerful single disc machine flexibly applicable on all surfaces. The machine is supplied with standard equipment including a 12 liter fresh water tank, a pad driving plate, and a shampooing and scrubbing brush.

### TECHNICAL DATA

# ZEUS

The new ZEUS single disc floor cleaner is a masterpiece of ergonomics and innovation for the challenging, professional cleaning of hard surfaces and textile floor coverings.

Duo Pad.  
Item-no. 201077

Power Pad.  
Item-no. 201076

Uniquely, the 10 litres fresh water tank sits directly on the machine and therefore ensures an optimum contact pressure, easy handling and perfect cleaning results. The user can remove the tank in just a single action, and work efficiently beneath objects or in edge zones thanks to the low ground clearance of just 10 cm. The standard convenient plus point: The fresh water tank, equipped with a stretch hose, can be simply topped up with water directly at the tap.

With its racy and powerful 1,500 Watt motor and the maintenance-free steel planetary gearing with 175 rpm, the ZEUS is extremely powerful and yet incredibly quiet. It is easy to operate and also enables inexperienced users to work safely, in an energy-efficient and fatigue-free manner. Added to this, it is simple to transport and space-saving when stored, because the shaft can simply be folded down fully.

If necessary, the Zeus can be flexibly upgraded from a 54 kg net weight to a maximum 64 kg. Thanks to the special latching element, brushes and discs can be switched in seconds without tools.

The new Zeus offers the maximum in quality, reliability and durability, and frequently proves to be a smart solution provider in everyday work.

with 12 m  
signal red

# EEM13 R

Orbital single disc machine.

**TIP** EEM 13 R Set with pump tank.  
Item-no. 202005

**Accessories:**  
Pump tank  
Item-no. 202037

### Suggested Use

Bathrooms, baths, changing rooms, stairs, hard surfaces and carpeting.

The EEM 13 R orbital single disc machine is ideal for cleaning small surfaces, niches and corners due to its compact construction and simple operation.

With its nominal weight of 12.7 kg, it is also suited for use on staircases. The eccentric transmission ensures effective cleaning and problem-free, safe maneuvering without effort or strain. The large rubber-coated wheels allow for convenient transport without leaving traces on the freshly-cleaned surface.

You can clean hard surfaces, buff stone and parquet flooring, and even shampoo carpeting with the included accessories.

### Features

- Powerful eccentric transmission
- Compact construction for easy handling
- Safe maneuvering without strain
- Complete accessories for all types of flooring

### TECHNICAL DATA

Voltage	220-240 V / 50 Hz
Max. Power	250 W
Sound pressure level	62 LpA [dB]
Brush rotation	150 U/Min.
Brush/ pad disk size	10" / 254 mm
Max. disk diameter	13"
Weight	12,7 kg
Length of power cord	7,5 m

Extremely quiet and easy to operate, suitable even for unexperienced users.

Pad holder.  
Item-no. 202010

Brush medium.  
Item-no. 202011

Brush soft.  
Item-no. 202012

### Accessories:

Queen Bonnet Pad. Item-no. 202034  
The Queen Bonnet Pad for the best cleaning results on carpets and carpeted floors.

7,5 m with signal red power cord

The compact EEM 13 R is perfectly suited for staircase cleaning. Small and compact, also great for all difficult to reach places and corners.

### Accessory:

Power Pad.  
Item-no. 202039  
For extra high cleaning performance on all floor coverings.

Item-no. UK EU

ACCESSORIES OVERVIEW, SEE PAGE 98-101 AND 108.

# TITAN

High-performance orbital machine with excellent cleaning results and safe operation.

with 12 m signal red power cord

The orbital technology combines two types of motion to achieve a higher mechanical cleaning effect while reducing the use of chemistry and protecting the environment. The interplay of eccentric and redating movements generates a special efficient cleaning pattern and thus differs from classic single-disc machines, which

perform a pure redational movement. In terms of smooth running, the orbital method also has a very positive effect on handling and makes it possible to drive the machine in a safe and fatigue-free manner at all times. Even inexperienced users can quickly become familiar with the Titan and achieve excellent work results in the

shortest possible time. The areas of application in basic and maintenance cleaning, polishing, and scrubbing on all floor coverings (carpet, stone, PVC, wood, safety tiles) are almost limitless.

Advantages of the orbital machine in comparison to a single-disc machine.

- less water
- less chemicals
- less time
- less effort
- mounted cleaning area 100 % (see right)

Thanks to significantly higher mechanical cleaning effect!

Tilting drawbar for increasing the contact pressure.

Motor protection cover protects the motor from moisture.

Excellent stairway mobility and stability.

Optional additional weight, 12 kg. Item-no. 207119

Pad holder. Item-no. 207113

Power Pad for all surfaces. Item-no. 201076

**Accessories:**

Brush medium. Item-no. 207115

Disc pads for each surface in different degrees of hardness.

# TORANA

Battery powered 24 V floor scrubber dryer. Easy handling due to compact dimensions. Ideal for small and highly obstructed areas. Thanks to a brilliant aspiration system, places open to the public can also be cleaned during opening hours.

Battery operation: Battery life, 75 min. under normal operation, 120 min. in ECO mode. For small to medium-sized areas. Area efficiency, approx. 1,260 m<sup>2</sup>/h. Excellent aspiration system. The floor is fully dried and can be walked on right away.

**Suitability**  
Ideal for office buildings, the retail sector, catering, hotels, schools, nursing homes, showrooms, hospitals and fitness centers.

## Features

- Beltless direct drive
- Suction bar automatically turns into the direction of workflow
- Swinging suspended brush adapts to any surface
- Evenly high brush pressure - 15 kg
- Battery operation: Battery life, approx. 75 min. under normal operation, and 120 min in ECO mode
- Pleasant, quiet running allows cleaning even during opening hours
- Area efficiency, approx. 1,260 m<sup>2</sup>/h
- Standard charge level indicator and integrated charger
- Two maintenance-free 33 Ah gel batteries

The water quantity can be adjusted for any floor covering.

Long lasting ball-bearing wheels.

Practical fresh water indicator.

Hygienic and easy-to-clean waste water tank.

Comfortable brush ejection at the push of a button.

The machine can be easily transported via the support wheel.

Rubberised guard roller allows for cleaning that is damage-free and close to floor edges.

The manoeuvrability of the TORANA makes it possible to use it in the very smallest of spaces. Ideal for highly obstructed areas.

Removable, easy-to-clean 16-litre waste water tank.

Easy filling of the fresh water tank.

15-litre clean water tank.

Direct drive.

Swinging suspended brush, adapts automatically to any surface and compensates for slightly uneven surfaces.

**Clearly arranged operation panel.**  
All operating elements and switches are located on the panel and the ergonomically shaped handle. This ensures handy machine operation even in the smallest of spaces.

Large, rubber wheels.

Suction bar automatically turns into the direction of workflow.

Internal charger with charge level indicator.

- ① The operating height of the control unit can be ergonomically adjusted.
- ② Lift/drain the suction bar.
- ③ Fresh water fill level indicator.

The maintenance-free gel batteries can be removed without tools via quick-connect couplings.

The clean water tank can be fully drained.

The dirty water tank can be emptied via the drain hose.

Easy filling of the 15-litre clean water tank.

**Scrubbing brushes:**  
Brushes with different degrees of hardness are available for different surfaces.

Brush soft 15" Item-no. 210429  
 Brush medium 15" (Standard) Item-no. 210427

# CAMIRA

Battery operated, 24 V scrubber dryer.  
Easy handling due to compact size.

The CAMIRA is the latest product highlight of the SPRINTUS scrubber dryers. The machine, which is part of the 30-litre-class, convinces with a compact construction design and agility, which allows for extremely easy and efficient cleaning.

Equipped with two maintenance-free Sonnenschein gelbatteries with 50 Ah each, the running time is about 120 minutes and the machine cleans quickly and effectively medium-sized areas of up to 1600 m<sup>2</sup>. At a low battery level, the connectible ECO mode can be activated and extends the running time of the machine when needed to conclude the cleaning task. The swiveling squeegee ensures an excellent suction power even during change of directions and the standard brush with a working width of 43 cm is perfect for a variety of cleaning tasks. The voluminous waste water tank, which can easily be cleaned due to its accessibility, is equipped with a user-friendly drain hose. The clean water tank can also be drained completely and makes the CAMIRA with its "brushdrop" at the push of a button, a standard on-board charger, and its excellent price-performance-ratio one of the most user-friendly machines in its class.

The CAMIRA is perfectly suited for medium sized areas of up to 1600 m<sup>2</sup>.

Battery runtime of up to 120 minutes.

The standard eco-mode guarantees a longer battery runtime and greater coverage. To start the eco-mode, push the SMART RUN button for two seconds until the display starts to blink.

User-friendly, ergonomic operating device with all functions clearly displayed.

With the SMART RUN button, you can easily activate all functions. Brush retraction, suction and water supply.

Suction and water supply can be turned on and off individually.

On-/off button.

Battery runtime display.

Squeegee swivels automatically into the working direction.

Rubber castors ensure a safe cleaning performance along edges.

Standard waste water drain hose.

① Working height can be adjusted individually.

② Lift and release squeegee.

The extremely narrow construction design guarantees a perfect handling and unique maneuverability.

Clean water can be drained completely and comfortably with the fast closure system.

Water amounts can be adjusted individually to floor type.

Large, easy to clean waste water tank.

Internal charging station with battery runtime display.

Due to the support wheel, the machine can be transported easily.

# Our brushes and pads

When cleaning with the single disc machines and floorscrubber dryers, besides the choice of the right cleaning machine, in particular the use of a suitable tool and the appropriate cleaning agent also plays a decisive role. In tools, a distinction is made between brushes and pads.

Here the rule is always that smooth flooring requires the use of a pad whereas textured flooring or floors with deep, wide joints require brushes. Both pads and brushes are available in various designs since the abrasiveness of the tool must suit the flooring.

## Brushes

The following table provides assistance with selecting the right tool for machine cleaning of floors. We offer you brushes in various hardness grades appropriate to your flooring.

	Description	Floor
Floor scrubber dryers	 Brush soft The bristles are made of polypropylene.	<ul style="list-style-type: none"> <li>Slightly structured floor coverings</li> <li>Aggregate concrete</li> <li>Rubber stud floors</li> <li>Floors with joints</li> </ul>
	 Brush medium The all-round brush with polypropylene bristles.	<ul style="list-style-type: none"> <li>All common waterproof, smooth and slightly structured surfaces with a medium degree of soiling</li> </ul>
	 Brush abrasive The hard, durable Tynex bristles are highly abrasive. This makes the brush suitable for removing stubborn dirt.	<ul style="list-style-type: none"> <li>Scratch-resistant floor coverings</li> <li>Hard floor coverings</li> </ul>
	 Brush horsehair For polishing, often after the work step cleaning or waxing of floor coverings.	<ul style="list-style-type: none"> <li>Porcelain stoneware</li> <li>Safety tiles</li> </ul>
Single disc machines	 Brush medium The all-round brush with polypropylene bristles.	<ul style="list-style-type: none"> <li>All common water-resistant surfaces with a medium degree of soiling</li> <li>Smooth and slightly structured surfaces</li> </ul>
	 Brush soft For shampooing and cleaning soft floors.	<ul style="list-style-type: none"> <li>Soft floors</li> <li>Sensitive floors</li> </ul>

The statements made are only recommendations. Because of the differences in flooring, a specialist test on the properties is essential.

## Pads

Pads are used for removing dirt or coatings and for polishing floors. We offer you scrubbing pads in white, red, green and black as well as special pads. The rule with the coloured pads is that the darker the pad, the more abrasive

it is, so the greater the abrasion. Care is recommended here since if a too-abrasive pad is used, this may cause damage and colour changes to the flooring. The following summary shows which pad is suitable for which type of floor.

	Description	Floor
Single disc machines and floor scrubber dryers	 Pad white For dry polishing of treated floors. Removes light deposits on smooth and coated surfaces. Suitable for maintenance cleaning.	<ul style="list-style-type: none"> <li>Tiles</li> <li>Coated floors</li> <li>Polishing of wooden parquet oiled/sealed</li> <li>Elastic floor coverings, e.g. linoleum, rubber, PVC, vinyl</li> </ul>
	 Pad red Scouring pad for everyday use. The all-rounder for maintenance cleaning.	<ul style="list-style-type: none"> <li>Water-resistant floor coverings</li> <li>Ground hard stone, e.g. granite</li> <li>Polished natural stone, e.g. marble</li> <li>Polished artificial stone, e.g. terrazzo</li> <li>Elastic floor coverings, e.g. linoleum, rubber, PVC, vinyl</li> </ul>
	 Pad green Abrasive cleaning pad for removing heavy to very heavy dirt. Suitable for basic cleaning and intermediate cleaning.	<ul style="list-style-type: none"> <li>Scratch-resistant floors</li> <li>Linoleum</li> <li>PVC</li> <li>Wood parquet oiled/sealed</li> <li>Hardwood decking</li> </ul>
	 Pad black Very abrasive cleaning pad for basic cleaning. Suitable for stripping floor coverings. Should only be used if the green pad does not produce the desired cleaning result.	<ul style="list-style-type: none"> <li>Very scratch-resistant floors</li> <li>Polished granite</li> <li>PVC with heavy incrustations</li> <li>Concrete</li> <li>Screed</li> <li>Wood parquet sanding</li> </ul>
Single disc machines	 Duo Pad For efficient intensive cleaning.	<ul style="list-style-type: none"> <li>Porcelain stoneware</li> <li>Cast stone</li> <li>Natural stone</li> <li>Terracotta</li> <li>Coated concrete</li> <li>Textured safety tiles</li> </ul>
	 Power Pad Durable all-rounder for all types of hard floor coverings.	<ul style="list-style-type: none"> <li>Tiles</li> <li>Safety tiles</li> <li>Stone floors</li> <li>Porcelain stoneware</li> <li>Concrete floors</li> <li>Vinyl</li> <li>PVC</li> <li>Linoleum</li> </ul>
 Queen Bonnet Pad Special pad for cleaning textile floor coverings and carpets. Used for superficial cleaning or quick visual improvement.	<ul style="list-style-type: none"> <li>Carpet coverings</li> </ul>	

The statements made are only recommendations. Because of the differences in flooring, a specialist test on the properties is essential.

# SE 7

Spray-extraction cleaner with a separate anti-foaming tank.

### Suggested Use

Designed for rug, carpet, and upholstery cleaning in offices, clinics, cinemas and households, as well as car upholstery.

With 4 bar spraying pressure and 230 mbar suction pressure, the SE 7 cleans quickly and thoroughly. The spray function can be turned on or off with the valve lever near the handle. The liquid levels of both the 6.5 litres fresh- and wastewater tanks can be checked at any time through the transparent lid of the device. Both tanks are separately removable.

A third, integrated container allows the use of anti-foaming agent.

The clear upholstery and floor nozzle allows free sight of the surface being cleaned and constant control over the process. Its ergonomic form guarantees effortless work.

The 7.5 m power cord ensures a large working range and can be rolled up on the cleaner handle after use. The body of the cleaner is made of impact-resistant plastic and is equipped with large, rubber-coated wheels, which leave no traces even on all sensitive surfaces.

### Features

- Thorough cleaning through the 4 bar spray pressure and 230 mbar suction power
- Spray and extraction functions are separately operable
- Separate fresh- and wastewater tanks, each containing 6.5 L
- Separate container for anti-foaming agent
- Clear, ergonomic nozzles
- Long stainless steel vacuum tube for convenient, effortless work
- Rubber-coated castor wheels and large back wheels for streak-free work

Spray-and vacuum-function are separately switchable at the device.

A separate tank allows for the use of anti-foaming agent and guarantees problem-free work.

### Functional principle:

Cleaning agent is sprayed on as needed.

Subsequent vacuuming up of the dirt, including liquid.

Clear upholstery nozzle for cleaning vehicle seats etc. The spray function can be adjusted via the operating lever on grip.

Large rubberwheels for silent running on tiles and mark free running on sensitive surfaces.

The floor spray nozzle with a long vacuum tube for convenient carpet cleaning.

### TECHNICAL DATA

Voltage	220-240 V / 50 Hz
Max. power	1100 W
Power pump	50 W
Max. suction	230 mbar
Sound pressure level	65 LpA [dB]
Spray pressure	4 bar
Water tank volume	each 6,5 litres
Length of power cord	7,5 m
Length of vacuum hose	2,5 m
Diameter of hose	38 mm
Diameter of tubes	38 mm
Weight	13 kg
Dimensions (L x W x H)	55 x 35 x 63,5 cm

Item-no. UK EU

### SE 7 SPRAY-EXTRACTION CLEANER

2 x 0,5 m suction tubes stainless steel ø 38 mm,  
2,5 m combi suction hose,  
floor nozzle with a width of 250 mm,  
upholstery nozzle with a width of 105 mm,  
defoaming tank, 7,5 m power cord

### STANDARD KIT:

Upholstery nozzle 105 mm	107011
Floor nozzle 250 mm	107010
1 x suction tube stainless steel	107013
2,5 m combi suction hose	107012
7,5 m power cord	107045

ACCESSORIES OVERVIEW, see page 109.

## Single rolling bucket chrome

Bucket volume 27 Litres

Chrome-plated metal framing with integrated storage basket and push handle.  
Durable plastic bucket and robust, double-backed mop press.  
LxWxH: 50x41x98 cm

Item-no.

**Single rolling bucket 27 litres chrome**

301035

## Warning sign

With universally understandable pictogram.  
Robust construction in impact-resistant plastic.  
Foldable, in signal yellow.

Item-no.

**Warning sign symbol (10 pieces)**

302015

Safety symbol and colour according ASR A1.3-2013, DIN EN ISO 7010.

## Double rolling bucket

Bucket volume 2 x 17 Litres

Durable plastic framing with metal push handle and metal casters.  
Two colour-coded buckets and robust, double-backed mop press.  
\*Illustrated storage basket is available separately.  
LxWxH: 83x45x88 cm

Item-no.

**Double rolling bucket 2 x 17 litres plastic**  
**Storage basket for 301001**

301001

301007

## Double rolling bucket chrome

Bucket volume 2 x 27 Litres

Stable, chrome-plated metal framing.  
Rubber wheels with metal casters and four bumper disks.  
Two colour-coded buckets and robust, double-backed mop press.  
LxWxH: 93x45x82 cm

Item-no.

**Double rolling bucket 2 x 27 litres chrome**

301114

## Double rolling bucket chrome pro

Bucket volume 2 x 17 Litres

Stable, chrome-plated metal framing.  
Push handle has an integrated fastener for trash bags and a spacious storage basket. Rubber wheels with metal casters and four bumper disks.  
Two colour-coded buckets and a robust, double-backed mop press.  
LxWxH: 93x39x98 cm.

Item-no.

**Double rolling bucket 2 x 17 litres chrome**

301081

# CombiX

Extendable system cart in four variations. Practically orientated solutions in professional quality with sturdy mop press and rubber casters.

① CombiX MINI

② CombiX

③ CombiX XL

④ CombiX PRO

Standard storage shelf for the cleaning plan.

**Optional:** Waste separation for CombiX XL/PRO. Item-no. 301200

Ideal positioning of the buckets at ergonomic working height.

Durable, high-quality mop press.

**SPRINTUS**  
*COMBIX pro*

Side tray with 2 x 6 litre closable buckets. Optional for CombiX and CombiX XL, as standard for PRO. Item-no. 301171

Non-transparent 70-litre waste bag.

Extra large 100 mm rubber casters with bumper.

### Upgrade for CombiX and CombiX XL

Bucket set 2 x 6 litre green + yellow with tray. Item-no. 301171

### Replacement bucket for XL & PRO

# PuriX

For hallway, bedroom and bathroom cleaning in public facilities, hotels, guesthouses, hospitals and nursing care. Colour-coded floor buckets, mounting for laundry or waste bags.

The PuriX in professional-graded quality consists in two robust plastic floor plates, the rear plate can be removed if necessary. The stable swivel casters and rubber-coated wheels are perfect for the requirements of daily, hard use. The lid on the laundry or waste bag can be conveniently operated from the ergonomic push handle. Mop or broom can be securely fixed in the built-in clip holder.

Integrated to the frame is a separate hanger for the warning sign. As standard, the PuriX is equipped with four buckets, a lateral mopdeposit, spacious 120 litres laundry / waste bag and a double bracket mop wringer. **TIP** also a Medusa battery sweeper can be carried along on the cleaning trolley.

Warning sign holder, the warning sign can be stored directly on the service cart.

Very easy to take out laundry or waste by using the zipper.

Side shelf for e.g. Medusa.

**Optional accessories:**

Storage tray 3-chamber set.  
 Item-no. 301197

Storage tray 4-chamber set.

# PuriX PRO

Lockable cleaning trolley for versatile use.

The compact, robust PuriX PRO cleaning trolley is particularly impressive with its lockable doors. This makes it suitable not only for cleaning corridors, rooms and bathrooms in public facilities, offices or hotels, but also guarantees maximum safety in the healthcare sector.

The two lockable storage compartments provide sufficient storage space for cleaning agents and other utensils. The optional storage trays ensure order behind the doors. In addition, the PuriX PRO is equipped with a holder for a laundry/waste bag.

The latter rests on a storage tray, which is reinforced by an additional wheel and can be removed if required. The cleaning trolley accommodates four large 5-liter buckets, which feature 4-color coding.

The PuriX PRO is also equipped with two 17 liter buckets and a metal wringer. Sturdy metal swivel casters and large, rubberized rear wheels give the cleaning trolley stability and allow for easy, safe maneuvering around the facility.

## Optional accessories:

Weight	30,3 kg

The optional storage trays with three or four chambers ensure order behind the doors. This means that the storage space can be optimally utilised for cleaning agents and other utensils.

# MatriX

Lockable cleaning trolley in two versions.

The MatriX, optionally with mop press or mop boxes, impresses with perfect workmanship, an extremely solid and robust construction, as well as an excellent price-performance ratio. The extra-large interior has three pull-out trays and a storage grid and offers versatile storage space for cleaning agents or other utensils. The lockable door ensures maximum security in the property and guarantees a modern and discreet appearance at all times. Thanks to the large rubberised 100 mm swivel castors, the MatriX can be moved effortlessly and safely at all times, even when fully loaded. The rear swivel castors have two individually lockable parking brakes and secure the MatriX against unintentional rolling away when parked.

## Supply

4-colour coding throughout.

Lockable doors provide security.

**Optional accessories:**

For 500 ml bottles.

# VariX

Expandable, lockable cleaning trolley in four versions.

With a total of four top-quality versions of the closed VariX cleaning trolley, we offer maximum benefits and the highest standards of hygiene for daily use in the healthcare and HoReCa sectors. The modular design is more versatile than ever and enables the right solution for every application. With its smooth and easy-to-clean surfaces as well as closed hygiene casters, buckets and optional mop boxes, it can be used in compliance with the highest hygiene regulations.

The lockable doors ensure maximum safety in the building, and the large pull-out drawers offer tons of loading space. Even at full load, the VariX can be manoeuvred without any great effort, and the extra large 150 mm steering casters overcome obstacles easily.

The VariX series is a reliable partner with an excellent price-performance ratio and a high level of cost-effectiveness.

# Magic Click

Ingeniously simple – simply ingenious! Foldable magnetic mop holder with patented self-standing function.

A smart solution with a big impact! Simply leave the Magic Click standing anywhere in the room when you need both hands free. The robust cardan joint can be pivoted all the way round for the figure 8 mopping technique and can be locked at any time so that the Magic Click can be left standing immediately and in any place. No need to lean it against the wall or an object. Goodbye to endless bending over to pick up the fallen mop. With Magic Click, you work effectively, quickly and consistently protect your back.

Magnetic-mop holder (VE 10 pieces)		Item-no.
<b>MAGIC CLICK</b>	40 cm	301039
<b>MAGIC CLICK</b>	50 cm	301040
<b>ACCESSORIES:</b>		
Aluminium handle	1,40 m	301018
Telescopic handle	0,80 - 1,45 m	301037
Telescopic handle PRO	0,96 - 1,75 m	301224
Spray handle		301218

Ergonomic, ribbed grip for secure holding, even through gloves.

**Accessories:** telescopic handle, height-adjustable in range 0.80 - 1.45 m for setting to the optimum working height. (Handle is not part of delivery content.)

Optional telescopic handle with Quick-action locking for simple height adjustment.

Shaft and holder are securely fixed with a stainless steel screw.

The click-action lock of the reliable self-standing function has been tested in a 10,000 action cycle.

All pivoting pins and screws are made of stainless steel.

The easy action redary joint enables easy turning in any direction and at any angle.

Strong magnetic catch with 5 kg closing force and automatic locking. The holder opens asymmetrically, thus facilitating threading into the mop pockets.

Optionally in 40 or 50 cm working width.

The snap-action holder can be easily opened with the large 2-stage foot switch.

Excellent production quality and an optimally balanced intrinsic weight guarantee perfect mopping action and strain-free working.

# Magic Vario

The all-rounder with a "click". Multi-functional for pocket and flap mops.

This multifunctional flat mop head with side flaps is unique in the world and is brimming with innovation and ergonomics. The Magic Vario saves you time and money thanks to its many practical details, and continues to look after your health.

Unlike any other folding head on the market, the Vario has a unique patented upright function allowing it to be set down anywhere in the room at any time without leaning it against the wall or other objects. Your staff will not have to move around so much on a daily basis, and also gain in

	Item-no.

terms of safety by avoiding dangerous trip hazards and, as such, any resulting workplace hazards. This also does away with unnecessary streaks or marks on the wall, and bending down is reduced significantly.

Excellent weight distribution makes the Vario extremely versatile, enables quick wiping even on areas with lots of furniture, and ensures a large area can be covered. Excellent workmanship and an optimum balanced weight guarantee perfect operation and effortless working.

- 1 Flexible**  
The particularly smooth redating joint enables easy pivoting in all directions and angles.
- 2 Simple**  
The folding head is extremely easy to open with the 2-stage foot pedal.
- 3 Optionally** in 40 or 50 cm width.
- 4 Everyday help**  
Thanks to the innovative spread of the isosceles shaped head, pocket mops can be stretched conveniently and in a vertical position.

You will find a selection of the various pocket mops on page 118123.

**5 All-rounder:**  
The Magic Vario is suitable for all types of pocket and flap mops. Flap mops heads are always held securely in place by the flaps.

**6 Comfortable:**  
Press the cover out without touching it.

**7 Optional:**  
Telescopic handle with economic grip for secure purchase, even with gloves. Quick release for easy height adjustment. Item-no. 301037

**8 Perfectly balanced:**  
Extremely versatile and smooth folding head.

**9 Ingenious:**  
The Magic Vario can be set down anywhere in the room at any time. The patented upright function is tested to 10,000 ratchet operations.

**10 Hygienic:**  
When nearly completely closed, the Magic Vario is extremely easy to clean.

# Our mop covers

for efficient cleaning.

### Maximum quality.

We process only selected materials of the highest quality. In doing so, we focus on top performance with maximum durability and service life.

### Four-colour coding.

Our mop covers have a four-colour coding (red, green, blue, yellow). To mark a cover, the flags that are not needed are simply cut off.

### Tear-resistant, padded pocket material.

Thanks to the padded pocket material, the covers can be installed easily with the mop holder. The water can drain off perfectly through the durable and robust pocket material. The pocket material is manufactured according to our high requirements and undergoes regular testing procedures.

### Embroidered care instructions.

On a label embroidered directly on the cover, important care instructions are inherently stable and permanently visible.

### Your customer logo.

Increase your recognition value and have your mop covers individually printed with your logo, already upon the purchase of single box.

Properly washing and preparing mop covers is of great importance for their durability. We have summarised our professional tips in a care manual for you.

## The right mop cover for your floor.

Different floor coverings and cleaning tasks require different mop covers. We offer you the right product solution for every floor covering and degree of soiling.

The right mop cover for your floor? See table on page 133.

# Pocket and flap mops

We offer you two models of our traditional pocket mops as a combination of pocket and flap mop. This applies to the Premium PRO professional mop made of microfiber and the Classic PRO made of cotton. They combine the advantages of pure pocket mops and flap mops. If the mop cover is used as a pocket mop, it may be attached with ease with the mop holder during operation and in an upright position. As a flap mop, on the other hand, the user benefits from the fact that the mop cover is always held securely in position by the tension flaps. This permits contact-free wringing out of the mop. With the Magic Vario clip holder you can use the combined pocket and flap mops in both ways.

## Premium PRO pocket and flap mops

Professional mop made of microfiber

# Your brand.

Increase your brand recognition with individualised products.

Video mop printing

Logo print can be added for order amounts of one box\* or more.

40 cm = 75 pieces per carton, 50 cm = 50 pieces per carton

## Mops with Logo print

If you purchase one box\*, you can choose from a selection of microfiber and cotton covers. For a small surcharge, we can print them individually with your logo. In this special printing process, your company logo is integrated directly into the fibers and is scratch and wash resistant. The best: you receive your order within only a few working days.

## Logo requirements for printing

- Maximum printing size: Width: 6,6 cm, Height: 3,4 cm
- Resolution of logo: Please send us an image file with your logo in high resolution. (Info: data format JPEG, PNG or TIF at least. 300 dpi resolution)
- Content of logo: Please only send us your company logo and ensure that the file does not contain too small font types, symbols or images.  
**Tip:** Print your logo file with a width of 6,6 cm and check if you can still read and recognise everything.
- Font size of logo: For a logo width of 6,6 cm, the font size of capital letters must be at least 2 mm and for lower case letters 1mm.

## Custom order - custom made including embroidered labels.

If you can not find what you are looking for in our assortment, please contact us. We can look forward to a wide selection. We use materials that we coordinate and produce according to the particular application and their individual needs. In addition, we can offer on request any kind and special size, as well as color changes and coding, which correspond to your requirements and areas of application.

## Dry vacuum cleaners: ERA EVO + ERA TEC + ERA iGO

From 10 pieces\* with your logo.

NEW

Now even better: ERA EVO, TEC & iGO- Free logo printing in top quality, more space for your logo. Other background colours possible.

NEW

FREE: Your logo on the digital touch display.

Customisation with your logo via the free SPRINTUS APP in seconds.

In larger quantities in your colour including user manual, packaging, rating label\*.
